

RENEGAT

Defender of the roots of house music since the first time, Renegat will decide to bring up this musical style throughout his life.
Influenced by artists such as Kerri Chandler, DJ Sneak, or Laurent Garnier, he started in clubs in 1987 and since then will never stop to be involved in the world of hexagonal clubbing.
In 1992, he co-founded the association 'Level 21' to promote electronic music at the Roxy Club (Brest), (a club institution in House & Techno music), and played alongside artists such as Thomas Bangalter (future Daft Punk) or DJ Sonic.
Continuing a faultless course in 'club' residencies, he founded in 1996 a new association: ('Pumpin' Groove') which led him to play in many clubs in western France with artists such as Charles Schillings, DJ Paco, Roussia or Felix Da Housecat ...
In 1999, we could find him on the char 'EMP' for the first Techno Parade in front of more than 100 000 people...
Following up residencies in various clubs, he will mix alongside many artists of the electronic scene: FEX, Oxia, Agoria, Terry Laird, Jerome Pacman...and some years later with DJ like Laurent Wolf or David Vendetta...
True monument of the night, Renegat is undoubtedly one of the most respected DJ for its longevity & career (25 years in nightlife so far)
Its ability to cross generations while maintaining the same high level musical discipline, focused on vocal & disco house, is really exemplary.
As a producer Renegat currently collaborates on various tracks with friends of his local scene in Laval (France) that are in progress.
